Letter of Appreciation for being the top achievers at 'Formula-1 in Schools' India
Virtual National Championship 2019-20

Dear Sara,
Dream! Soar! Achieve!

'Formula-1 in Schools, India' is an embodiment of international STEM (Science, Technology, Engineering, Mathematics) competition.

Your dynamic design for the miniature F-1 Model using CAD/CAM design tools enabled you to tread the tough path with great pride. The immense display of innovation, collaboration, team spirit, engineering skills while designing of a prototype of a unique aerodynamical car instilled a belief in all that working together for a common objective and a common goal definitely fetches laurels.

'**Blitz Falcon 6,**' your team, was an outcome of your accomplishments withstanding the most daunting challenges through sheer grit, determination, exemplary courage and focus. Additionally, the crowdfunding events organized to find sponsors for the Nationals was yet another milestone in your learning journey.

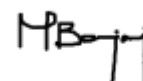

We wish to congratulate you on surpassing all expectations, and believing that it is not just the results but all the hard-work, tireless efforts, commitment to excellence and passion that makes you among the top achievers of **'Formula 1 in Schools' India**
Virtual National Championship 2019-20.

Many Congratulations!

Ms Sonya Ghandy Mehta

School Director

Ms Monika Bajaj

Principal, Middle School
